commands to do stuffs like sending mails, joining meet, Opening apps or websites, finding answers from internet. I can tell you weather, Wiki blo etc. You can ask me anything.

User: what is secularism

Garvis: Secularism is the principle of seeking to conduct human affairs based on naturalistic considerations, uninvolved with religion. It is most commonly thought of as the separation of religion from civil affairs and the state and may be broadened to a similar position seeking to remove or to minimize the role of religion in any public sphere.
